

# MediaWise Introduction

Children are growing up in a world where marketing messages reach into most areas of their lives. These messages are now so prevalent and increasingly persuasive that it's more important than ever to teach children to understand these messages and what they are saying.

MediaWise is a FREE Media Literacy Resource developed for use across all Primary School classes. It aims to help children develop their awareness and understanding of media, advertising and marketing. This will enable children to make more informed decisions about their needs and wants based on the marketing messages they are exposed to.

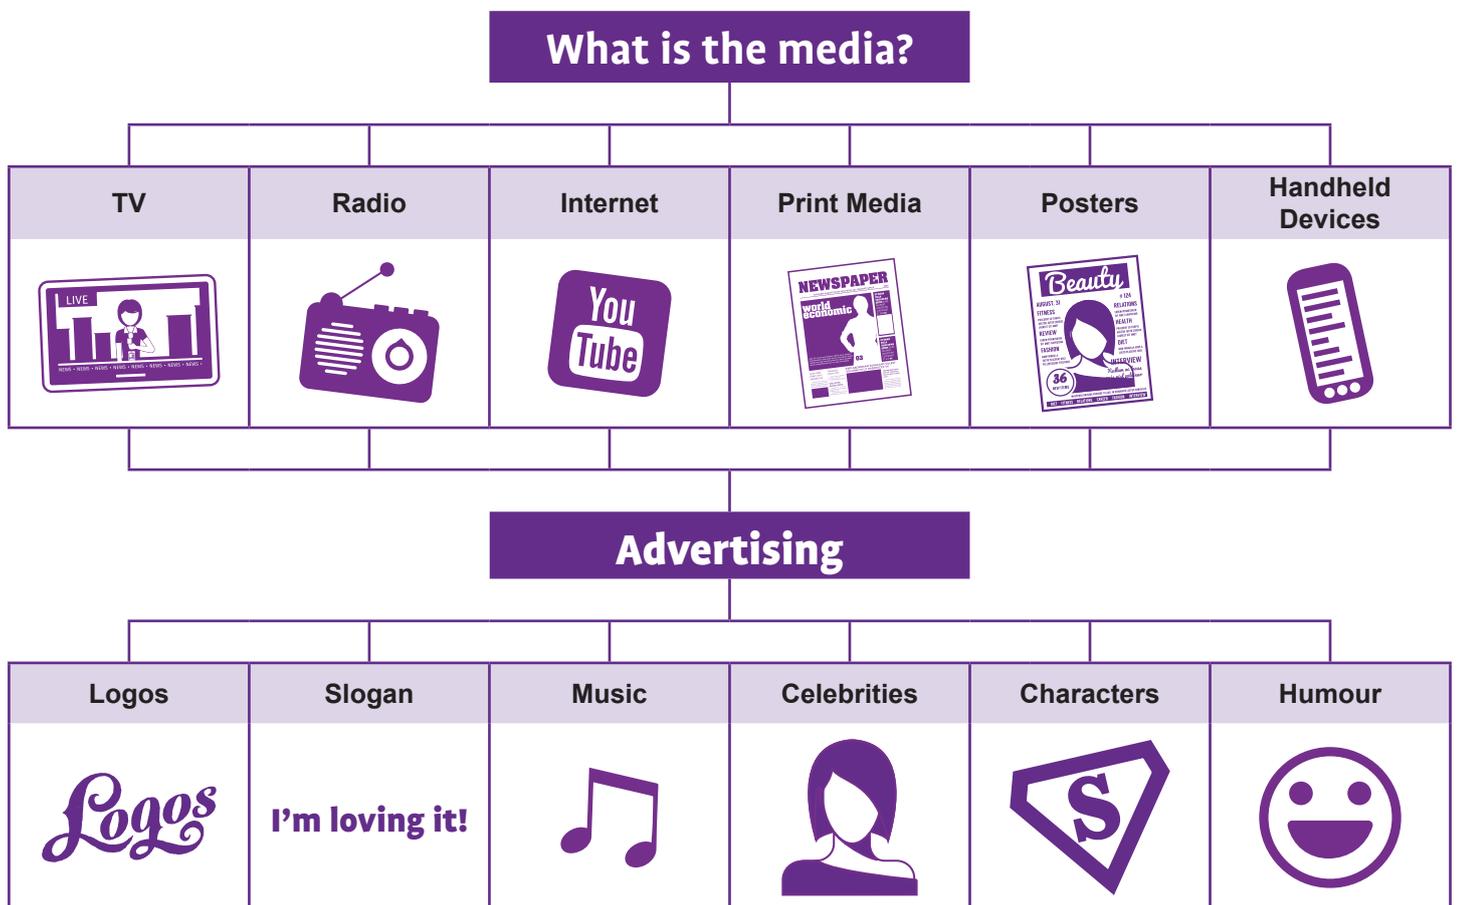

## Learning objective

MediaWise aims to give children the life skills they need to take full control of the rapidly changing media forms at their disposal. Based on the Broadcasting Authority of Ireland's core competency framework for media literacy, the resource aims to help children understand and critically evaluate broadcast, digital and other media content and services to make informed choices.

## Learning outcomes

On completion of the resource children will be able to:

- Identify - identify and describe different types of advertising
- Analyse - understand the purpose of a range of adverts, and the techniques they sometimes use to influence
- Explain - explain how advertising rules shape the adverts that we see
- Evaluate - ultimately help children develop critical thinking about the commercial world around them and help them make better informed choices.

## Using MediaWise

MediaWise is an online resource. It has eight lessons for each class grade, developing in a spiral curricular manner over the course of a child's development. You can use MediaWise lessons throughout the school week, as the resource utilises a variety of teaching methodologies to link teaching and learning across the primary school curriculum.

**Each lesson has been designed as a 40 minutes session. The teachers' notes comprise an outline of each lesson, including:**

- The learning objective
- Learning outcome
- Resources to be used
- Methodology.

**A detailed walk through of the lesson is outlined, including:**

- Pupil worksheets
- Activities
- Interactive activities.

You can use these flexibly and adapt them to the amount of time you have available.

MediaWise includes a selection of real adverts for reference that you can use within the lessons and as a stimulus for future media literacy activities.
