

Meeting the animals – safely

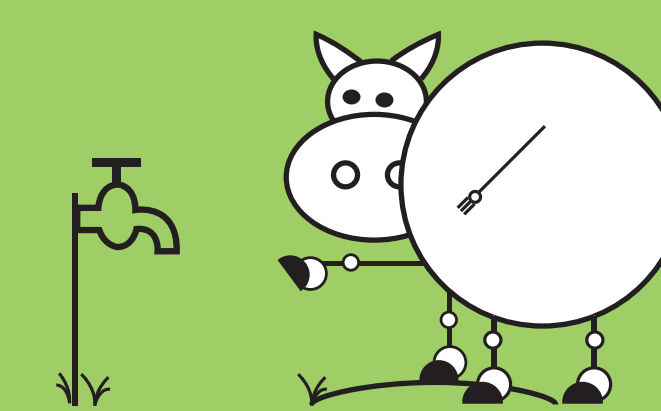

Don't kiss the animals or let them lick your face and never touch any animal droppings

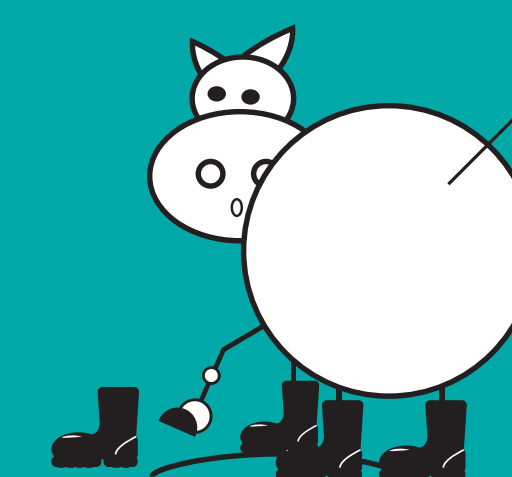

Don't suck your fingers and keep pencils, pens and crayons out of your mouth

Don't drink from any taps unless they are clearly marked 'drinking water'.
Don't drink raw or unpasteurised milk

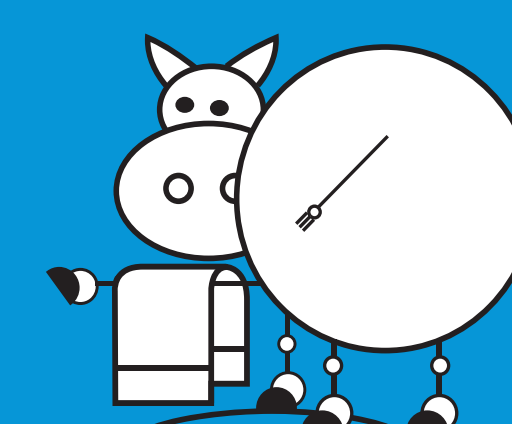

Try and keep footwear and pram or buggy wheels clean during your visit

Wash your hands thoroughly with soap and warm water and dry them properly

- after visiting the animal area
- after changing or cleaning footwear
- after cleaning prams and buggies
- before eating

Wipes and gels do not remove germs that are in dirt

Only eat in the designated areas and only eat food you bring with you or buy from a food shop on the farm. Don't taste animal foods or eat food that has fallen on the ground
